

Analysis of Teachers' Feedback 2021-22

1. The analysis of the teachers' feedback shows that about 95% of the faculty think that the available teaching resources – classroom facilities, availability of library books, library timings etc. are quite satisfactory.
2. 98% of respondents have indicated that classes are taken as per schedule.
3. Student admissions take place as per the University of Calcutta norms in all programs. To attract meritorious students apart from the different Government scholarships the management of the B.E.S. college also awards a meritorious student scholarship. About 15% of teachers are, however, uncertain about the ability of the college to attract meritorious students.
4. Though being an undergraduate college where a recent migration has taken place from an annual evaluation system to a choice-based semester system, the faculties strive as far as possible to undertake individual research - about 81% have indicated that they are encouraged to undertake research work. The arts and Science section each publishes Annual Magazines where papers by faculty and students are published. There is a Research & Publication cell to encourage research among faculty members.
5. More than 90% of the respondents have indicated that the infrastructure – classrooms, furniture, toilets, buildings, laboratories, building maintenance, etc. are quite satisfactory. Access to water – potable and otherwise, is also adequate.
6. An effort taken for institutional development, working of the IQAC, and promotion of collaborative activities has been found to be satisfactory by almost 90% of the respondents.
7. There are, however, some concerns regarding accessibility and freedom of expression which the college plans to address in the near future.
