The teaching is quite good

Helpful Mentors and teachers

Discipline, cooperation, understanding

Should have more of events...and should give exposure to students by planning certain college trips yearly

1. Handouts for each topic must be provided by all teachers after completion of one topic 2. Equal opportunities must be given to all to participate in extra curricular activities.

Teachers need to focus more on each student

Must not have 2 hrs of classes of same subject it's get difficult to concentrate properly

1. Personally connecting with every student 2. Encouraging them to participate in co curricular activities .

More industry visits for BBA Students, Making those candidates learn important skills for internships who are willing to do it and also find it for them

Teachers should check students assignments or projects

B

1) BBA department should take some steps so that the students actively participate in extra-curricular activities like the other departments

The teachers must give and take prompt constructive feedback.

I think the institute is doing a great job

The results of CIE should be discussed before IA, soft skills should be given the same importance as syllabus,

1) Practical learning/Real Case-Study based problems should be discussed in the class.
2)Mental calculations,speed Increase and Time management should be taught in the class. 3)
Teachers should focus on how to enhance the presentation and verbal skills of every student.

SHIFT THE BBA DEPARTMENT TO THE MAIN CAMPUS

Communicate with the students, coz maximum time, students fail to follow up what is being taught. Avoid using microphone in classes, since it becomes too loud to be heard clearly, prefer using natural vocal. Keep experimental classes where students can participate in GD, Business Plans, Discuss marketing strategies etc to enhance their skills and apply what they have learned in classrooms.

Please provide jet spray in the toilets 🧻

The test papers should be given to students for to see the marks

T

1. Less class duration 2. More practical classes 3. Less theoretical classes

Our CIE Examinations Paper was never shown back for reassessment to know where did we go wrong and correct ourselves in the future

Integrating real-world applications and examples into the curriculum to demonstrate the relevance of the subjects being taught to bridge the gap between theory and practice. In this way learning would be meaningful and help us students for their future careers.

Try to use the available devices in the class to teach.

To focus on students wants and needs

Our internal papers are never shown to us thus giving us a opportunity to see our progress. Paper like CIE , IA or any exam. Our syllabus is never confirmed and we are always informed

right before our exams making it difficult for us to prepare. We are not provided with sufficient study material

FINANCE should get an STUDENT INVESTMENT FUND which we (students doing CFA FRM OR CA) can manage with a corpus of x amount. This makes us truly employable when we have it on our resume that we have managed funds before. It is my sincere request that you consider it.

Class should be interactive, class should be made to understand subjects well

1. Motivate students to focus on assignment and also increase positiveness. 2. Setup the adequate environment to take online classes for students who cannot come to attend offline class for a valid reason. 3. Advise students for their career and academic opportunities.

Its good overall

Teachers should use microphone in the classroom so that everyone can hear them

1. Conceptual teaching 2. Discuss doubts of students

All things are ok

1. Teaching Style of many teachers are different and I like that. 2. Many teachers used to do only teaching and that's the reason I think many of them bunk the class, so teachers have to do interact with the students. 3. Always a Besc 🙌🙌

Make a strict attendance rule

1. The teaching staff is greatly helpful 2. All instructions are very clearly given. 3. The extracurricular activities are the best

All is ok

Kindly ask the teachers to be in touch with the students and give them fair marks in internal exams

Lots of mtp

Nothing as such, the institution is doing just fine for us the students

1. More practical methods of teaching. 2. More use of digital board for explaining concepts. 3. Focused should be on learning

Overall I am satisfied. Thank you.

Information,

Teachers can try to pay more attention towards the weak student and help them.

1. RS2 and GD ma'am need to improve their teaching.

establish regular feedback mechanism; emphasize soft skills

No such suggestions.. teachers are doing a great job ❤️

Best teachers

1) College helping staff(not professors)members are extremely rude and uncooperative. 2) Please invest in a better placement cell where good companies sign up to recruit, our college has a lot of talented students

Kindly hear student's perspective more

...

Compulsory attendance must be there

Teachers are very good, they are very friendly and helpful

Teaching staff in excellent

1:- Weekly revision 2:- Quizzes 3:- some type of recreation weekly

Explaining a topic using students and daily life experiences can be better

Some teachers are the best....and some need training regarding how to teach...PKT sir, Gargi Mam, Gargi Das are the best teachers..

Internals marks should be given wisely I don't why few who don't come to are getting 16, 15 13 11 according to what they feel like ,a college like Bhawanipur shouldn't do this shame on you

Everything is going good

No suggestions, teachers are doing well

Attendance should be made compulsory.

There is nothing to give suggestions

1) Group Projects

1. Some new courses may be added , 2. More sports and games may be added

Internal exams marks valuation

Some professors are very egoistic. They think they can never be wrong. Only a handful of one or two professors were good and approachable.

Less assumptions about the background of individuals rather more focus to bring a change and educate for the better .

more about study

1-Make teaching a two way interaction 2-Make sure that the learning materials is encouraging and interactive

Excellent

Provide workshop and placement knowledge to every candidate through their respective email or through their group

1.Syllabus should be fully covered

Effective Efficient Repeat

Good teachers

Presentations, practical demonstration, real life examples

Support for internal evaluation marks by fair marking

1.college should do mandatory attendance for students.2.college should provide factory visit to the students. 3. Last but not the least, the college should provide practical knowledge to the students

Few teachers are way too strict.I have never had any personal issues with any teachers, but just by observing them, they seem so rude and arrogant, which creates a great hindrance in communication.still remember, how horrible was the teachers behavior during our internals,and that too out of no reason, i guess students become a burden on them.I would suggest the College to identify these teachers and tell them to be more polite and approachable.A man becomes cursed due to their arrogance. But again, there are very kind and helpful teachers as well.

1.Set clear classroom expectations. 2.try to remove the fear of failure. 3.Encourage participations. .

Give more homeworks

Overall learning experience is very good

Overall the teaching - learning experience in my institution is good. So, No suggestions.

1) Attendance of Bcom students should be taken care of. (2) Teachers must try interact more in the ratio of 1:1(with each and every students present in the class). (3) I feel Computer teachers (IT-sem6) should have to be more responsible.

With due respect the following observations:1) Bhawanipur college is the best (2) Teaching faculties of Bhawanipur college is the best (3) I love my college and I am proud being an undergraduate of The BESC
