DEPARTMENT OF CHEMISTRY

Student-centric methods, such as experiential learning, participative learning and problem-solving methodologies are used to enhance learning experiences.

Group discussion:

Group discussions between students and teachers foster collaborative learning and enhance critical thinking. This report details a group discussion conducted by Faculty members and students on the topic "Acid-Base Chemistry and pH". The session aimed to clarify concepts, encourage analytical thinking, and address student queries interactively. The teachers summarized key takeaways and posed an open-ended question for future exploration: "How can acid-base chemistry be used to address environmental challenges, such as ocean acidification?"

DEPARTMENT OF COMPUTER SCIENCE

**Department of Computer Science
NAAC Criterion 2.3.1 & 2.3.2
2023-24**

CRITERION: 2.3.1

1. One-day Seminar on Cyber Security by DataSpace Academy (April 15, 2024)

The Department of Computer Science at The Bhawanipur Education Society College hosted a One-Day Seminar on Cyber Security in collaboration with DataSpace Academy on 15th April 2024. Led by Mr. Soumya Jas, Senior Cyber-Security Analyst, the seminar aimed to introduce students to fundamental concepts of cyber security, including network vulnerability exploitation and protection strategies. Mr. Jas provided a comprehensive overview of ethical hacking, detailing the role of white-hat testers and demonstrating real-world scenarios of malicious attacks. A hands-on session introduced participants to Kali Linux, equipping them with practical skills in penetration testing and security auditing. With 32 students, 6 teachers, and 2 staff members in attendance, the seminar successfully enhanced awareness and technical expertise in cyber security, empowering attendees to safeguard against potential threats. The event concluded with gratitude to DataSpace Academy for their invaluable contribution to fostering technological resilience.

2. 30 Hours Add-On Course on Programming in Python (June 20, 2024 - July 16, 2024)

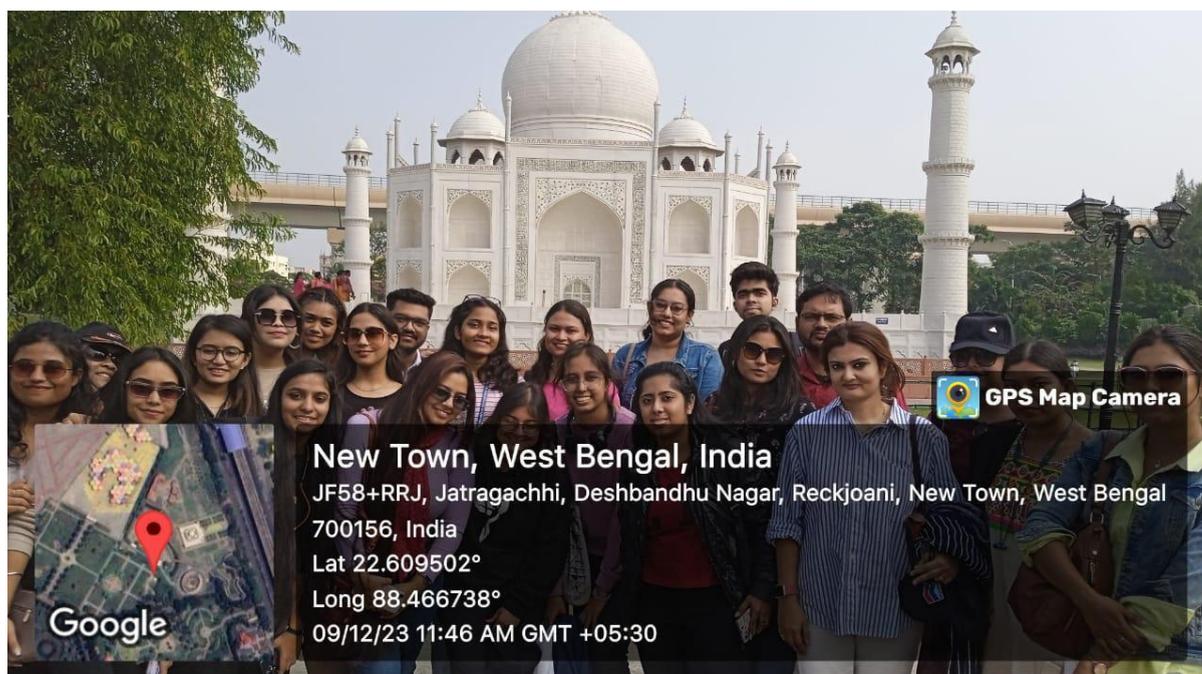

The Department of Computer Science at The Bhawanipur Education Society College, in collaboration with IT experts from DataSpace Security Private Limited, conducted a 30-hour add-on course on Python programming from June 20 to July 16, 2024. Led by resource persons including Mr. Amartya Chakraborty and departmental faculty members, the course covered Python fundamentals, data structures, data visualization, and real-life project implementation. Aimed at enhancing programming skills and bridging the gap between academics and industry, the course empowered 11 participants with practical knowledge in Python and problem-solving. Students demonstrated remarkable progress, successfully completing various challenges and applying their learning to real-world scenarios. The programme concluded with a certificate distribution ceremony celebrating their achievements. Participants expressed appreciation for the hands-on guidance provided by industry experts and faculty, marking the course as a resounding success in fostering technical competence and industry readiness.

DEPARTMENT OF SOCIOLOGY

NON-ACADEMIC EVENTS

1. Name of the Activity: Students' Field Trip to Eco Park
2. Type of Activity: Field Trip
3. Date/ Duration of Activity (from-to): 09.12.2023
4. Time: 11:00 am to 4:00 pm
5. Details of Resource persons/ Judges/ Special Guests, etc: NA
6. No. of Participants: Teachers- 6; Students- 18
7. Objective of the event: This field trip has been organized in relevance to the coursework on Research Methods, promulgated by the University of Calcutta. Thus, it equipped the students with the strategies of conducting social research.
8. Brief description of the event: The Department of Sociology had organized a day field trip to Eco Park Kolkata with the students of semester 5 on December 9, 2023.
9. Outcome of the event: In the field trip the students had learnt about the ecological significance of an amusement park in a metropolitan city and its socio-cultural impact. They had participated in activities to study the perspectives of the visitors and their interpretations of the amusement park.
